Introduction to Policy Laboratory 4

Objectives and scope

The Policy Laboratory Approach

A Rationale for policy learning

Status Quo

lack processes and instruments
providing an in-depth
understanding

lack contextualisation of broader
enabling framework conditions

policy learning simply as a form
of technology transfer or
dissemination

MIN-GUIDE Approach

Platform for **informal and
interactive exchange**

broader success criteria
facilitating transferability

**hands on learning with
peers** (experiences of
practitioners)

Policy Laboratory Scope: **Innovation-friendly minerals policy - Building blocks**

A policy framework facilitating innovation needs to address certain challenges

- I. **Governance challenges** – Incoherent / conflicting policies, transparency/legitimacy in policy-making

Narrative I

MIN-GUIDE: What are policies & mechanisms facilitating good governance?

- II. **Industry sector challenges** – more efficient waste management and mine closure approaches

Narrative II

MIN-GUIDE: What policies are facilitating industry innovation?

Policy Laboratory topic: Exploration and Extraction

When you look into the future... a Europe in 2030...

...What will be the **innovations driving the mining sector** at that point in Europe?

...What would be a **supporting policy framework** facilitating these Innovations?

**Thank you for your attention
&
We wish you interesting discussions**
